SHOW YOUR SCHOOL SPIRIT...AROUND THE CLOCK

As a fund raiser for WHITE PLAINS HIGH SCHOOL we are selling a slice of school spirit that is also a connection builder between friends and family and a conversation starter for people you just met. This fundraiser isn't cookies you'll eat once and they'll be gone, or that you'll put in the freezer and forget about. This isn't a coupon card that you'll never use. No, this is a sharp looking, 9" clock with our logo on it.

What good is a clock like this? It's just a clock, right?

Actually, the clock is the vehicle for our WHITE PLAINS SCHOOL LOGO. When you hang it in your home or your place of work, you'll be amazed at all the things it does.

- Reminds you of me every time you see it.
- Starts a conversation with friends about me and our FBLA and STATE CONVENTION.
- Starts a conversation with friends about how everyone dressed and the cars you all drove when you were in high school.
- Starts a conversation with a new client that helps you find common ground that eventually leads to new business.
- Marks your turf in the workplace, so everyone knows your office is WILDCAT territory!
- Reminds you and your colleagues that you have a great life outside of work.
- Gives you critical information: how long until lunch, how long your chicken has been in the oven, how long until you go home, how long until your special company arrives for a visit.

All of this, and it's a handsome clock, too, with a bold guarantee! Your clock will work right out of the box (battery included). If for some reason something isn't just right with your clock, call the number on the box and Custom Built Clocks will see to it that you are satisfied.

Everyone needs a clock!

- Every teenager needs a clock in their bathroom
- Every kitchen needs a wall clock by the oven
- Every shop or garage needs a clock by the radio
- Every weight room needs a clock by the squat rack
- Every office needs a clock over the copy machine
- Every game room needs a clock that has a second hand
- Every business needs a clock in the break room
- Every grandmother needs a clock for her bedroom
- Every grandfather needs a gift for his birthday

You'll love your Custom Built Clock, and you'll love knowing you bought a product that is so useful that will last for years to come. Mostly, you'll love knowing you helped me help our WHITE PLAINS WILDCATS.
